

First Responder's Toolbox—A Catalog From December 2013 To December 2021

SCOPE: First Responder's Toolboxes cover a variety of terrorism targets and tactics. They are designed to aid in preparedness, coordination, response, safety, security, and investigations among all CT stakeholders, including law enforcement, fire service, emergency medical services, health and human services, emergency planning, private sector, and the general public, as appropriate. The products are available on Internet-based, US Government information sharing systems, such as HSIN (hsin.dhs.gov), LEEP (www.cjis.gov), and RISS (officersafety.riss.net) and unclassified toolboxes are publically available on nctc.gov.

NOTICE: This product was developed by the Joint Counterterrorism Assessment Team (JCAT), which is a collaboration by NCTC, DHS, the FBI, and state, local, tribal, and territorial government personnel to improve information sharing and enhance public safety. The product is intended to promote coordination among intergovernmental authorities and the private sector in identifying, preventing, and responding to foreign terrorist activities in the US. The product should be considered within the context of existing laws, authorities, agreements, policies or procedures. For additional information contact us at JCAT@NCTC.GOV.
